Special Issue: Yucca Mountain Project
Guest Editors: **Gudmundur S. Bodvarsson, Clifford K. Ho, Bruce A. Robinson**

Preface 1

Part I: Unsaturated Zone Papers

Estimation of percolation flux from borehole temperature data at Yucca Mountain, Nevada
G.S. Bodvarsson, E. Kwicklis, C. Shan and Y.S. Wu. 3

Development of discrete flow paths in unsaturated fractures at Yucca Mountain
G.S. Bodvarsson, Y.-S. Wu and K. Zhang 23

Chlorine-36 data at Yucca Mountain: statistical tests of conceptual models for unsaturated-zone flow
K. Campbell, A. Wolfsberg, J. Fabryka-Martin and D. Sweetkind 43

On the physics of unstable infiltration, seepage, and gravity drainage in partially saturated tuffs
B. Faybishenko, G.S. Bodvarsson and R. Salve 63

Inverse and predictive modeling of seepage into underground openings
S. Finsterle, C.F. Ahlers, R.C. Trautz and P.J. Cook. 89

Conceptual evaluation of the potential role of fractures in unsaturated processes at Yucca Mountain
J.J. Hinds, G.S. Bodvarsson and G.H. Nieder-Westermann 111

Flow and transport in the drift shadow in a dual-continuum model
J.E. Houseworth, S. Finsterle and G.S. Bodvarsson 133

Seepage into drifts with mechanical degradation
G. Li and C.-F. Tsang. 157

Modeling flow and transport in unsaturated fractured rock: an evaluation of the continuum approach
H.-H. Liu, C.B. Haukwa, C.F. Ahlers, G.S. Bodvarsson, A.L. Flint and W.B. Guertal 173

Analysis of flow behavior in fractured lithophysal reservoirs
J. Liu, G.S. Bodvarsson and Y.-S. Wu 189

Calibration of Yucca Mountain unsaturated zone flow and transport model using porewater chloride data
J. Liu, E.L. Sonnenthal and G.S. Bodvarsson 213

Estimation of past seepage volumes from calcite distribution in the Topopah Spring Tuff, Yucca Mountain, Nevada
B.D. Marshall, L.A. Neymark and Z.E. Peterman 237

Performance assessment model development and analysis of radionuclide transport in the unsaturated zone, Yucca Mountain, Nevada
B.A. Robinson, C. Li and C.K. Ho 249

Fault-matrix interactions in nonwelded tuff of the Paintbrush Group at Yucca Mountain
R. Salve, C.M. Oldenburg and J.S.Y. Wang 269

Visualization experiment to investigate capillary barrier performance in the context of a Yucca Mountain emplacement drift
V.C. Tidwell, R.J. Glass, C. Chocas, G. Barker and L. Orear 287
Modeling unsaturated flow and transport processes at the Busted Butte Field Test Site, Nevada
P.-H. Tseng, W.E. Soll, C.W. Gable, H.J. Turin and G.Y. Bussod 303
A geostatistical modeling study of the effect of heterogeneity on radionuclide transport in the unsaturated zone, Yucca Mountain
H.S. Viswanathan, B.A. Robinson, C.W. Gable and J.W. Carey 319
Evolution of the unsaturated zone testing at Yucca Mountain
J.S.Y. Wang and G.S. Bodvarsson 337
Chemical analyses of pore water from boreholes USW SD-6 and USW WT-24, Yucca Mountain, Nevada
I.C. Yang, Z.E. Peterman and K.M. Scofield 361
Parallel computing simulation of fluid flow in the unsaturated zone of Yucca Mountain, Nevada
K. Zhang, Y.-S. Wu and G.S. Bodvarsson 381

Part II: Saturated Zone and Coupled Processes Papers
Radionuclide transport simulation and uncertainty analyses with the saturated-zone site-scale model at Yucca Mountain, Nevada
B.W. Arnold, S.P. Kuzio and B.A. Robinson 401
Validation of the Multiscale Thermohydrologic Model used for analysis of a proposed repository at Yucca Mountain
T.A. Buscheck, L.G. Glascoe, K.H. Lee, J. Gansemer, Y. Sun and K. Mansoor 421
Analysis of thermohydrologic behavior for above-boiling and below-boiling thermal-operating modes for a repository at Yucca Mountain
T.A. Buscheck, N.D. Rosenberg, J.A. Blink, Y. Sun and J. Gansemer 441
Experimental and numerical simulation of dissolution and precipitation: implications for fracture sealing at Yucca Mountain, Nevada
P.F. Dobson, T.J. Kneafsey, E.L. Sonnenthal, N. Spycher and J.A. Apps 459
The saturated zone at Yucca Mountain: an overview of the characterization and assessment of the saturated zone as a barrier to potential radionuclide migration
A.A. Eddebbarh, G.A. Zyvoloski, B.A. Robinson, E.M. Kwicklis, P.W. Reimus, B.W. Arnold, T. Corbet, S.P. Kuzio and C. Faunt 477
Three-dimensional spatial variability of chemical properties around a monitored waste emplacement tunnel
W.E. Glassley, J.J. Nitao and C.W. Grant 495
Effect of heterogeneity in fracture permeability on the potential for liquid seepage into a heated emplacement drift of the potential repository
C.B. Haukwa, Y.W. Tsang, Y.-S. Wu and G.S. Bodvarsson 509
Modeling thermal–hydrological response of the unsaturated zone at Yucca Mountain, Nevada, to thermal load at a potential repository
C.B. Haukwa, Y.-S. Wu and G.S. Bodvarsson 529
Microbial Impacts to the Near-Field Environment Geochemistry: a model for estimating microbial communities in repository drifts at Yucca Mountain
D.M. Jolley, T.F. Ehrhorn and J. Horn 553
Modeling dispersion in three-dimensional heterogeneous fractured media at Yucca Mountain
S.A. McKenna, D.D. Walker and B. Arnold 577
Uncertainties in coupled thermal–hydrological processes associated with the Drift Scale Test at Yucca Mountain, Nevada
S. Mukhopadhyay and Y.W. Tsang 595
Testing and parameterizing a conceptual solute transport model in saturated fractured tuff using sorbing and nonsorbing tracers in cross-hole tracer tests
P.W. Reimus, M.J. Haga, A.I. Adams, T.J. Callahan, H.J. Turin and D.A. Counce 613

Analysis of thermal–hydrologic–mechanical behavior near an emplacement drift at Yucca Mountain
J. Rutqvist and C.-F. Tsang 637
Fluid flow and reactive transport around potential nuclear waste emplacement tunnels at Yucca Mountain, Nevada
N.F. Spycher, E.L. Sonnenthal and J.A. Apps. 653
Transport of a reactive tracer in saturated alluvium described using a three-component cation-exchange model
E.J. Sullivan, P.W. Reimus and D.A. Counce 675
Analytical solutions for reactive transport of N-member radionuclide chains in a single fracture
Y. Sun and T.A. Buscheck 695
Thermally induced natural convection effects in Yucca Mountain drifts
S.W. Webb, N.D. Francis, S.D. Dunn, M.T. Itamura and D.L. James 713
The site-scale saturated zone flow model for Yucca Mountain: calibration of different conceptual models and their impact on flow paths
G. Zyvoloski, E. Kwicklis, A.A. Eddebbarh, B. Arnold, C. Faunt and B.A. Robinson 731
